Are you frustrated by a slow computer? Wish you knew how to fix the problems plaguing your system? Have you purchased software at various stores only to find out they don't work or they make things worse?

Below you'll find a menu of services offered. Along with the service, I'll give an explanation of **EVERYTHING** done to your computer. Too often a customer is left in the dark and have to rely on a PC service technician's assistance again, costing more money !
